Participants

Yesterday was a historic day

OIT had their last hearing before finalizing their rules

"This is an overwhelming requirement... we urge OIT to delay implementation of these requirements or provide funding..."

—Many staff at all levels of government in CO

"How oh how long will we need to wait? It has been three years since this law passed."

—Curtis Chong - National Federation of the Blind, Colorado

"I can't do my job if I can't access government information."

—ReNae Anderson

Timeline of events

Oct. 10, OIT requested input on potential rule topics

Nov. 16, OIT requested input on draft rules

Nov. 27, OIT hosted a listening session for input on draft rules -

Transcript, chat log, presentation slides

Dec. 15, OIT requested input on the revised rules

Jan. 23, OIT received feedback from the public on the revised rules

Soon - publication of final rules

July 1, 2024 - New accessibility rules apply

What are all these Colorado laws and rules?

Key Takeaways

- ✓ After hearing from lots of stakeholders, rules have tightened up
- ✓ No more cure period, exceptions section has been removed
- ✓ They did take our feedback from the November session into consideration in section 11.F.1. "Undue burden" for archived content.
 - *Archived ICT that is maintained for reference, research, or recordkeeping and is not altered or updated after the date of archiving, and is generally organized or stored in a dedicated area identified as archives*
- ✓ Rules won't be easy to implement, but Colorado will lead the nation in accessibility and should be very proud of what it is taking on, especially for the 1M Coloradans with a disability.

Our mission

Make Colorado special districts the most accessible form of government in the state

10 steps checklist

Hot off the press!

<http://tinyurl.com/adachecklistco>

Colorado 2024 Web Accessibility Checklist [\[download latest\]](#)

Congratulations on your commitment to ensuring that your district's website is accessible to your entire community, including those with disabilities. This checklist will help you ensure compliance with **HB21-1110** and **8 CCR 1501-11** by the **July 1, 2024** deadline.

Before you begin

- Review the latest [Technology Accessibility Rules](#) from Colorado's Office of Information Technology (OIT)
- Perform an initial scan to check for known issues using [checkmydistrict.org](#) or another tool
- Have your website provider's contact information to report any issues

One-time actions - examples available at <https://getstreamline.com/accessibility-policy>

- 1. Designate an accessibility officer** - We have designated one staff member to be the accessibility officer who will be the go-to contact for accessibility issues.
- 2. Approve an accessibility policy/transition plan¹** - Our board has approved an accessibility policy that includes the level of accessibility you are adhering to (WCAG 2.1 AA)
- 3. Create and post an accessibility page** - We have created a dedicated accessibility website page to house all accessibility-related content.
- 4. Create a process for community concerns** - We have a process in place where a community member can submit a concern via form, phone number, and/or email address
- 5. Enable closed captions on your videos** - Our videos all have closed captions, and we have a process for including closed captions in future videos. YouTube includes this for [free](#), when enabled. [Learn how.](#)

Ongoing actions - recommended once per month

- 1. Scan your website pages each month** - We have scanned every page of our website, every page has a score and list of issues to remediate. Free tools include [checkmydistrict.org](#), Google Chrome Lighthouse (F12 will activate), and [achecker.com](#). Demand your web developer to address any issues that arise.
- 2. Check your attachments** - We have checked all of our attachments and written a disclaimer for any third-party attachments that we do not have the ability to remediate. Note: 8 CCR 1501-11 provides an "undue burden" clause that could apply for archived PDFs, although we recommend fixing popular PDFs
- 3. Perform remediations** - if issues are detected by a scan or reported by your community, take action to fix

Other actions to consider

- Third-party ADA audit - larger districts should consider hiring an outside firm to conduct an audit. Manual testing by users with disabilities is the gold standard to ensure access.
- Choosing a platform or insurance that indemnifies or insures you against the risk of fines

Updated Jan 23, 2024, for the latest recommendations to comply with the Americans with Disabilities Act (ADA) / WCAG 2.1 AA / Section 508 / HB 21-1110 (CO) and 8 CCR 1501-11. Learn more about accessibility for special districts at <https://www.nationalspecialdistricts.org/ada>

www.getstreamline.com/accessibility

¹ Stay tuned for more information and a special district template for the required [technology accessibility transition plan](#)

One-time Actions

To get your district compliant

1

Designate Accessibility Officer

- ✓ Select a person in your organization to handle these requests
- ✓ Usually the person who updates your website

2

Approve an Accessibility Policy and Transition Plan

✓ Here's one to start:

getstreamline.com/accessibility-policy

✓ Stay tuned for more information and a special district template for the required [technology accessibility transition plan](#)

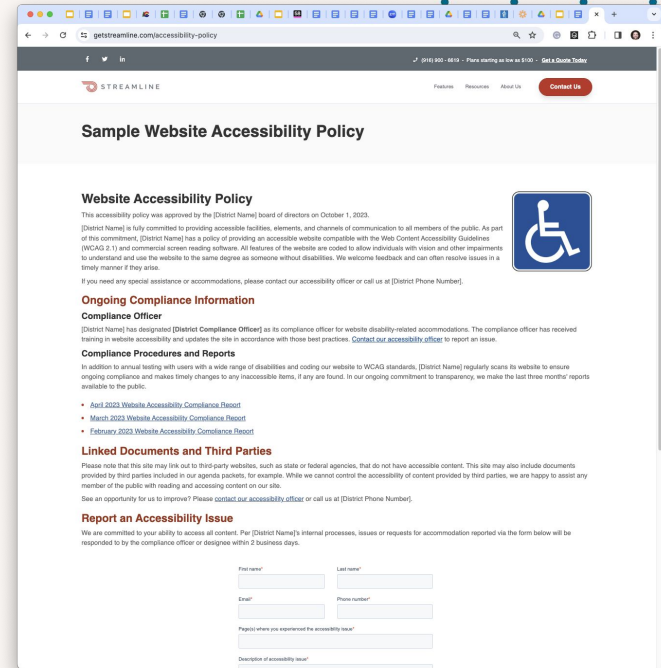

11.6 Technology Accessibility Transition Plan (from Dec 15 Draft Rules, edited for brevity)

- A. Each public entity shall develop a technology accessibility transition plan. There is no mandatory accessibility transition plan template. Optional examples of a transition plan template include: [W3C WCAG Maturity Model](#) or [State IT Accessibility Planning Template](#).
- B. The technology accessibility transition plan shall include, at a minimum:
 - 1. Annual status updates demonstrating progress on advancing the transition plan
 - 2. Prioritization of ICT according to community impact and strategic impact including the following categories. Consider how the ICT will impact the public entity and its users, including aspects such as legal requirements, importance to the program, service, or activity, user impact, and usage metrics.
 - 3. The steps the public entity is taking to remove accessibility barriers in their ICT
 - 4. Timelines which clearly communicate when inaccessible ICT will be addressed and the plan for providing reasonable accommodation and modification in the interim
 - 5. Policies for a regular cadence of testing and remediation of ICT
 - 6. A process in which customers can report inaccessible ICT or request an accommodation or modification for inaccessible ICT
 - a) A service level agreement for the response time to requests
 - b) Those who are responsible for responding to accessibility requests are trained on how to respond to those requests.
 - 7. A notice, prominently and directly linked from the public entity's website or other prominent location in the ICT, instructing how to request reasonable accommodations or modifications or to report inaccessible ICT. The notice shall provide more than one method to request accessible information, which could include an accessible form to submit feedback, an email address, or a toll-free phone number (with TTY), to contact personnel knowledgeable about the accessibility of the ICT.

3

Create Accessibility Page

- ✓ A page listing your accessibility officer and your policy, and how to contact the district

4

Create Process for Requests

- ✓ Just like you do for public records requests
- ✓ Ensure timeline is included

5

Enable Closed Captions

- ✓ If you have videos on your page, or you link to YouTube, make sure Closed Captioning is enabled
- ✓ If you are a larger district, consider hiring a closed captioning service
- ✓ If using Zoom, enable live captions

If you click this, do you see captions?

Good Day Sacramento - Forever Fun Run 2021

Team Mac ran from the Sacramento Zoo to the state Capitol in support of foster youth. They all had the same bib number - 9174 - to represent the number of foster youth awaiting a permanent family

Join me in solidarity for foster youth!

There are 9,174 youth waiting for permanent homes in Sacramento. I hope you'll join me on Saturday, April 17, 2021 at the west steps of the California State Capitol to make a stand for change for Stanford...

Step 2

Best Places To Work Video

Digital Deployment is honored to be named one of the best places to work in Sacramento by the Business Journal!

Step 3: choose language

YouTube Studio interface showing the 'Video subtitles' settings. The video title is 'Join me in solidarity for foster youth!' and the video duration is 1:53. The 'Subtitles' menu item is highlighted in the left sidebar. The 'Video subtitles' section shows a dropdown menu set to 'English' and a checked checkbox for 'Make this the default for my channel'. A blue 'CONFIRM' button is visible below the checkbox.

Step 4: confirm

Ongoing Actions

Recommended once per month

6

Scan your website pages

Not a replacement for a full human verification, but a good way to assess your district's general accessibility.

- ✓ Free: Lighthouse (in-browser), WAVE, CheckmyDistrict.org
- ✓ Commercial solutions

Overall Accessibility & Risk Score

33
FAIL

Your current accessibility & risk score: 33/100 (FAIL)

It appears [ACME Municipal Utility district](#) needs a bit of work to reach accessibility, but don't worry you're not alone. Countless other districts are in the same boat. The most important thing to do is set up a plan to reach compliance.

Why is 100% compliance critical?

- More than **2,403 districts** have been affected by an accessibility action.
- **The median settlement is \$25,000.**
- **Very few if any**, special district insurance policies even partially cover the costs of web accessibility issues.

2. Top accessibility issues found on your site

Understanding your accessibility issues 🤔

Accessibility issues come in all shapes and sizes. Some are more obvious to the naked eye like "color contrast issues". However, others are more structural in nature and related to the code that's on your site. These types of issues affect how screen readers interpret your site. Understanding the specifics of each type of error can be tricky. [Here's an article will help get you up to speed.](#)

Solving your accessibility issues 🍊

1. **Tackle low hanging fruit first.** Items like "images that are missing alt text" or "incorrect heading order" can often be solved by your team through your CMS tools.

Important • Superhuman x 2022 CSDA board sec - CA po x main - Accessibility - Outbo x District Compensation - Acme x +

Understanding the specifics of each type of error can be tricky. [Here's an article will help get you up to speed.](#)

Solving your accessibility issues 🙌

1. **Tackle low hanging fruit first.** Items like "images that are missing alt text" or "incorrect heading order" can often be solved by your team through your CMS tools.
2. **Reach out to IT or your web developer.** Many items, even color contrast issues, will require coding assistance to get your site compliant (This can require time and/or budget).
3. **Use accessibility tools.** A handful of website platforms will have accessibility tools built in. (For example, if you're using Streamline for your special district website, you already have a tool that points out the exact spot on the page and shows you how to fix it without ever having to get a programmer involved.)

Your accessibility issues	Total

The Special District Website Accessibility Report

[Download or Email this Report](#)

3. Pages that need to be fixed

The following pages on your site require remediation to become ADA compliant. We recommend using Google Analytics to discover which of these pages currently receive the most web traffic and starting there. If you use Streamline, you can find your to-do list within your ADA dashboard.

Page(s)	Score
 Homepage	95
 Contact	88
 About	78
 Services	99
 Board	99
 Meetings & Agendas	99
 Bill Pay	99
 Calendar	99

[See results for all 280 pages](#)

The Special District Website Accessibility Report [Download or Email this Report](#)

5. Your timeline to reach accessibility

Obviously, **timeline is the big question**. While we don't know all the ins and outs of your organization or tech stack, we do know the major factors that affect can affect the timeline of your accessibility plan. We've laid out the known factors and a couple of scenarios below that would get you back to compliance and away from risk.

Factors for your timeline

Factor 1: Your CMS	Wordpress
Factor 2: The type of errors on your site	Structural + Presentational
Factor 3: The volume pages on your site	38 pages
Factor 4: The amount of time your staff has available to work on daily remediation	unknown

Estimated Remediation Scenarios ✔

	Details
<p> Option 1: Do it yourself</p> <p>Your internal team takes on the remediation with the help of IT and/or web developer.</p>	<p> Between 45 - 90 days of hands-on remediation.</p> <p>Plan for dedicated developer and staff time each week.</p>
<p> Option 2: Hire a remediation service</p> <p>Your team hires a remediation service to overhaul code and content issues and set up long-term remediation contract.</p>	<p> Custom quote required for timeline</p> <p>Plan for an in-depth audit, a website content and code overhaul, & ongoing consulting for future issues.</p>

Water conservation is the practice of using water efficiently to reduce unnecessary water usage. According to [Fresh Water Watch](#), water conservation is important because fresh clean water is a limited resource, as well as a costly one. As a homeowner, you're probably already well aware of the financial costs of inefficient water use. Conservation of this natural resource is critical for the environment — and our wallets.

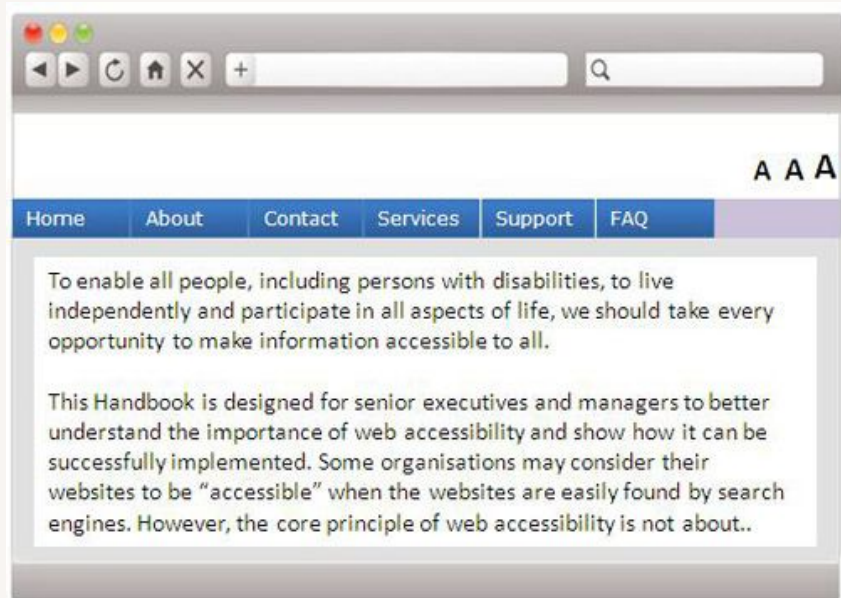

America's population [has doubled](#) over the last half century, and our demand for water has tripled. Water conservation is more important than ever, and the world is looking for tips on saving water. The great news is that with just a few simple changes, you can reduce your water footprint. And Constellation is here to help!

How to save water: 10 tips for saving water around the home

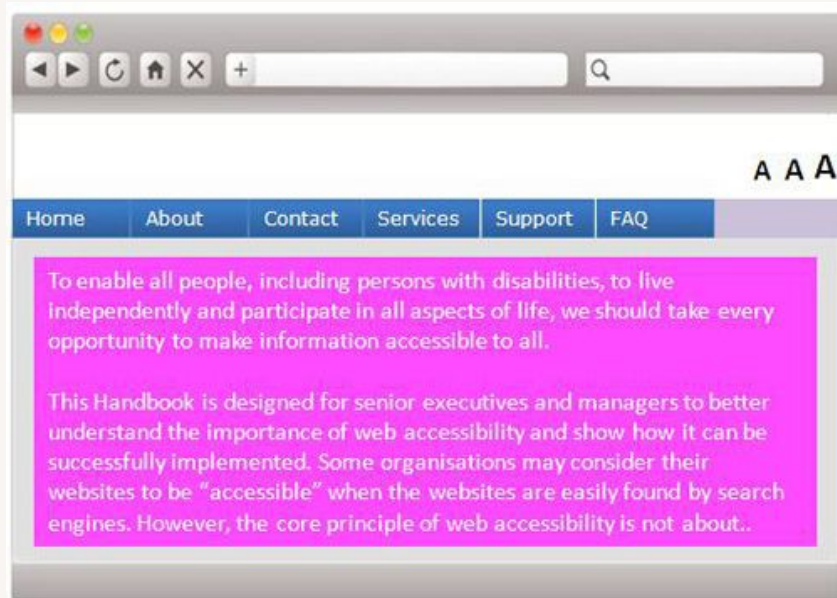

The majority of household water use comes from toilets, washing machines, showers, baths, faucets and leaks, but what you can do to save water is fairly simple. These 10

Why Fix?
Text becomes difficult to read when its color is too similar to the color behind it. Increasing contrast makes text easier to read, especially when viewing documents in bright light.

Steps To Fix:
Increase contrast by changing the color of the font (Home tab) or by changing the page color (Design tab).

8

Perform Remediations

- ✓ Insist your vendors do the web remediations
 - contact us for language if you get pushback
 - Add to all RFP language to comply with WCAG 2.1 AA standards ([CO vendor letter template](#))
- ✓ Establish a process

8

Perform Remediations

- ✓ Keep an eye out for nonstandard content
- ✓ if you're embedding a map, adding an infographic, linking to a third-party site, etc. try to provide the content in an accessible format, or at least describe the content so people will know what they are missing and how to contact you for more information.

9

Third-Party ADA Audit

- ✓ If larger district, consider 3rd party test
- ✓ Use software that is audited, ask for copy of last report or VPAT
- ✓ Especially if manual testing was performed, you can include in your plan

10

Consider Platform/Insurance

- ✓ Ask what assurances/indemnification your platform provides
- ✓ Evaluate insurance options, if needed
 - e.g. Prowriters, AAATraq
 - Most standard insurance won't cover (e.g. EPLI, Statewide pools, Cyber)

NSDC
NATIONAL SPECIAL DISTRICT ASSOCIATION

ISSUE BRIEF

Special Districts and Website ADA Compliance

By Mai Clements, CEO, Streamline Software for Special Districts | Updated February 24, 2022

Just as buildings must have wheelchair ramps, public websites must have special provisions for users with disabilities. The number of lawsuits rose 50% in 2021¹, and the penalties for noncompliance are rising—averaging \$4,000 for an ADA case in 2019² to \$39,000 in 2022. It's a situation that The Wall Street Journal calls "very painful" in a recent article.

Special districts are not exempt from ADA. In fact, special districts are required to have an accessibility policy.

Understanding Accessibility Laws

The laws surrounding accessibility are complex and nuanced. There are a few layers of federal regulations further augmented by state regulations in some states. While more and more state laws are emerging with their own timelines and penalties, most districts do not realize that they are already liable for violations of federal laws, which comprise the majority of court actions.

State Laws

Requires that state agencies comply with accessibility guidelines. Includes: California, Colorado, Florida, Georgia, Illinois, Michigan, Minnesota, New York, North Carolina, Oregon, Texas, Virginia, Washington, Wisconsin, and Wyoming.

Section 508

A law enforced by the FCC that sets specific guidelines for how to make accessibility accessible for electronic content, including websites.

WCAG Guidelines

The international web accessibility guidelines that are referenced directly or indirectly by both state and federal laws regarding web accessibility.

ADA Compliance

The Americans with Disabilities Act demands the right of people with disabilities to have equal access to public places, including websites.

Understanding website accessibility

When special districts have a website, it is required to be technically accessible and have policies and procedures for reporting and remediation.

Colorado 2024 Web Accessibility Checklist

[Download Checklist](#)

Congratulations on your commitment to ensuring that your district's website is accessible to your entire community, including those with disabilities. This checklist will help you ensure compliance with **HRS21-110** and **8 CCR 1505-11** by the **July 1, 2024 deadline**.

Before you begin

- Review the latest [Streamline Accessibility Data](#) from Colorado's Office of Information Technology (OIT)
- Perform an initial scan to check for known issues using [checkmydistrict.org](#) or another tool
- Have your website provider's contact information to report any issues

One-time actions - examples available at <https://getstreamline.com/accessibility-policy>

- Designate an accessibility officer.** We have designated one staff member to be the accessibility officer who will be the point contact for accessibility issues.
- Approve an accessibility policy/transition plan.** Our board has approved an accessibility policy that includes the level of accessibility you are adhering to WCAG 2.1 AA.
- Create and post an accessibility page.** We have created a dedicated accessibility website page to house all accessibility-related content.
- Create a process for community concerns.** We have a process in place where a community member can submit a concern via form, phone number, and/or email address.
- Enable closed captions on your videos.** Our videos all have closed captions, and we have a process for including closed captions in future videos. YouTube includes this for [free](#), when enabled. [Learn how.](#)

Ongoing actions - recommended once per month

- Scan your website pages each month.** We have scanned every page of our website, every page has a score and list of issues to remediate. Free tools include [checkmydistrict.org](#), Google Chrome Lighthouse (P2) via activate, and AChecker.com. Demand your web developer to address any issues that arise.
- Check your attachments.** We have checked all of our attachments and either a disclaimer for any third-party attachments that we do not have the ability to remediate. Note: 8 CCR 1505-11 provides an "unable to remediate" clause that could apply for external PDFs, although we recommend fixing popular PDFs.
- Perform remediations.** If issues are detected by a scan or reported by your community, take action to fix.

Other actions to consider

- This 3-party ADA audit - larger districts should consider hiring an outside firm to conduct an audit. Manual testing by users with disabilities is the gold standard to ensure access.
- Choosing a platform or insurance that indemnifies or insures you against the risk of fines

Updated Jan. 23, 2024. For the latest recommendations to comply with the Americans with Disabilities Act (ADA) / WCAG 2.1 AA / Section 508 and 8 CCR 1505 and 8 CCR 1505-11, learn more about accessibility for special districts at <https://www.getstreamline.com/accessibility>
